

NOTICE No. 001/2019, February 01, 2019

Admission Process to Master Course at LNCC Graduate Program in Computational Modeling

The Commission for Evaluation and Selection (CAS - Comissão de Avaliação e Seleção) of the Graduate Program in Computational Modeling of the National Laboratory for Scientific Computing LNCC/MCTIC announces that registration for the Admission Process to its *stricto sensu* Master Course is open, according to this Notice.

1. PROGRAM AND TARGET AUDIENCE

The LNCC's (PG-LNCC) Graduate Program in Computational Modeling aims at providing a multidisciplinary advanced education in Exact Sciences, Computer Sciences and Life Sciences to Graduates in Mathematics, Physics, Chemistry, Engineering, Computer Science, Biology, Economics or other related areas.

For admission to the PG-LNCC Master Program the candidate must have received a undergraduate course in one of the above areas.

Note: Re-admission of former students who have been dismissed from the PG-LNCC is only possible after two years from the dismissal date.

2. ENROLLMENT

The registration for this Admission Process will be open according to the schedule provided in section 5. It must be made via Internet; by filling the online form available at the site <http://posgrad.lncc.br/> and uploading electronic copies of the documents listed below.

By signing up to this Admission Process, the candidate declares to know and accept the rules set forth herein and the PG-LNCC's Bylaws, available at the site <http://posgrad.lncc.br/en/regiment-of-the-program>.

Required documents:

Brazilians

1. Identity Card and CPF;
2. Lattes CV (see Lattes Platform <http://lattes.cnpq.br/>);
3. Statement Letters from representatives of educational institutions or companies where the applicant had Scientific Initiation, Internship and or had gained Professional Experience, indicating the exact **beginning and end of the** periods of carrying out these activities. These statement letters may be written in Portuguese, Spanish or English;

Mestrado

4. Official transcription of records of the applicant's under-graduate course containing explicit information on Grade Point Average (GPA) and grading scales involved, i.e., the mapping from letter grades to a numerical scale, where applicable. **Lack of explicit information on the GPA will imply ignoring it in the N1 score (see section 3).**
5. Undergraduate diploma or alternatively a letter from the administration representative of the undergraduation institution attesting that the candidate is a undergraduate student and stating the expected undergraduation date;
6. Two reference letters about the candidate, which can be found as a standard form in Appendix II;
7. Letter of Intentions explaining candidate's motivations to apply to the graduate program at LNCC (maximum one page);
8. Additional documents (**single file**) according to Appendix I.
9. **Spreadsheet available in Appendix III, which should be filled in, according to the rules defined in Appendix I.**

Foreigners

1. Passport
2. Curriculum Vitae;
3. Letters from representatives of educational institutions or companies where the applicant had Scientific Initiation, Internship and or had gained Professional Experience, with descriptions of the developed activities and information on **their start and end dates**;
4. Official transcription of records of the applicant's under-graduate course containing explicit information on Grade Point Average (GPA) and grading scales involved, i.e., the mapping from letter grades to a numerical scale, where applicable. **Lack of explicit information on the GPA will imply ignoring it in the N1 score (see section 3).**
5. Undergraduate diploma or, alternatively, a letter from an administration representative of the undergraduation institution attesting that the candidate is a graduate student and stating the expected undergraduation date;
6. Two reference letters about the candidate, which can be found as a standard form in Appendix II.
7. Letter of Intentions explaining the candidate's motivations to apply to the graduate program at LNCC (maximum one page);
8. Additional documents (**single file**) according to Appendix I.
9. **Spreadsheet available in Appendix III, which should be filled in, according to the rules defined in Appendix I.**

Note: The documents referred to in the items 3 to 9 above may be presented in Portuguese, Spanish or English. **Do not include documents of any sort that are not strictly those required in this Notice.** The reference letters (item 6) have to be directly emailed by each referee to copga@lncc.br

3. ADMISSION PROCESS

The Admission Process will be held in two stages:

First Stage: Document analysis and pre-selection of candidates based on the quantitative assessment their curricula vitae, defined by the N1 score (between 0 and 10) described in Appendix I.

Second Stage: Candidates pre-selected in the First Stage will be examined orally on the content of their academic transcripts; letter of intentions and other submitted documents, as well as their interests and previous experience in topics related to Computational Modeling (Mathematics, Modeling and Computation). A N2 score (between 0 and 10) will be assigned to the candidate's performance on the oral examination.

Notes: The oral examination may be held via videoconference, provided that the candidate requests it when applying to the admission process. The LNCC will not be responsible for providing technical resources and equipment or for operational failures that may occur during the video conferencing process.

4. CLASSIFICATION AND ELIMINATION CRITERIA

First Stage:

Classification criterion: Candidates will be sorted in descending order of N1 Scores (see Appendix I). **Elimination criterion:** Up to $1.5V$ candidates will be selected to participate in the Second Stage if the candidate's N1 Score is greater or equal to 7.0, where V is the number of vacancies available in this Admission Process (see section 6).

Second Stage:

Classification criterion: candidates will be ranked in descending order of their Final Score $NF = (4 \times N1 + 6 \times N2) / 10$. **Elimination criterion:** Up to V candidates with Final Score ($NF \geq 7.0$) will be accepted to enroll in the PG-LNCC Doctoral Program, where V is the number of available vacancies in this admission process (see section 6).

5. CALENDAR

Application Period: from March 11 (8:00 a.m.*) to April 18, 2019 (6:00 p.m.*) *GMT-3

Result of First Stage: May 13, 2019.

Second Stage: from May 20 to May 24, 2019.

Final Result of the Admission Process: May 27, 2019.

The results of each stage will be announced on the LNCC website (<http://www.posgrad.lncc.br/>), and the final result will also be sent to the applicant via e-mail.

6. NUMBER OF VACANCIES

Eight **(8)** vacancies are offered in this Admission Process.

7. ENROLLMENT IN THE PG-LNCC PROGRAM

Accepted candidates must enroll in the PG-LNCC Doctoral Program in **June or September**, abiding by the 2019 academic calendar (available in the PG-LNCC homepage), at the Secretariat of the Graduate LNCC program, from 09:00 to 12:00 and from 13:00 to 16:30.

The enrollment approval is subject to the presentation of the following authenticated documentation: Passport, transcript(s) of records and diploma(s) or master degree certificate(s).

8. VALIDITY OF THE ADMISSION PROCESS

The result of this Admission Process is valid for **4 months** from the date of publication of the final result.

9. APPEALS

Any appeals against the results of each stage of this Admission Process must be submitted in writing to the LNCC Coordination of Graduate Studies in Computational Modeling Program within **48 (forty-eight) hours** from the date the result of each stage is published.

10. GENERAL PROVISIONS

The information provided by the applicant will be his/her sole responsibility and any candidate may, at any time, be excluded from the Admission Process if proven that any provided document and/or information was fake or untruthful.

The cases not covered herein shall be resolved by the LNCC RESEARCH AND HUMAN RESOURCES TRAINING COUNCIL (CPFRH – Conselho de Pesquisa e Formação de Recursos Humanos).

Appendix I

p_2	General Point Average (GPA) of the undergraduate course ¹ adjusted to the range between 0 to 10 (decimal)
p_3	Ministry of Education evaluation index ³ for the course, in the range of 1 to 5
p_4	Scientific Initiation (in years); minimum 6 months ⁴
p_5	Experience/internship in the training area related to the PG-LNCC (in years); Minimum of 1 year and within the last 5 years ⁵ .
p_6	Published full paper in an indexed journal ⁶ with editorial board and peer review (in number of articles in the past 5 years)
p_7	Published full paper in conferences or in a non-indexed journal ⁷ with editorial board and peer review (in number of articles in the past 5 years)
p_8	Published abstracts in conferences ⁸ (in number of abstracts in the past 5 years)
p_9	Honors and academic awards ⁹ : (a) Best thesis, dissertation, paper, software in International or National level: value 1.0; (b) medalist in Academic Olympiads, best poster, paper/software in congress, best national Scientific Initiation work: 0.5; (c) Regional Academic Awards: 0.25 (NOTE: Maximum value for this parameter is 1.5)
p_{10}	Diplomas in more than one (different) undergraduate courses ¹⁰ , $p_{10} \in \{0, 1\}$ 1 = more one diploma 0 = one diploma

The parameters p_4 to p_9 will be set base on the information provided in the CV of the candidate and from the supporting documentation provided. **According to the documents required (item 11), the candidates must describe in full in the spreadsheet provided in Appendix III the values of the required parameters.**

¹For candidates with multiple undergraduate degrees: the GPA of only one undergraduate course will be considered for p_2 and the GPA of only one graduate course will be considered for p_0 . The candidate must decide which one to fill in in the form provided in Appendix III.

²The value 4 will be assigned if CAPES has not ranked the course.

³Continuous CPC or, if inexistent that, a value equal to $2 + d$, where $d = 0$ if the course nominal duration is less than 2400 hours and $d = 1$ otherwise.

⁴Append to the documentation the Statement Letter from the educational institutions where the applicant had Scientific Initiation, with the dates of start and end of each scientific initiation project. The value of p_4 must be necessarily supported by formal evidence given in the Statement Letters. The Statement Letters may be written in Portuguese, English or Spanish.

⁵Append to the documentation Statement Letters of the institutions (or companies) where the internship was conducted or where professional experience was obtained, stating the exact period when the activities were carried out. The value of p_5 must be

necessarily supported by formal. The Statement Letters may be written in Portuguese, English or Spanish.

⁶Only full-papers published in journals indexed by Scientific Citation Index Expanded (<http://ip-science.thomsonreuters.com/mil/>) will be considered. **Append to the documentation the first page of each paper, stating the month and year of publication.**

⁷Only full-papers (5 or more pages) published in conferences and non-indexed journals will be considered. Append to the documentation the first page of each paper, stating the month and year of publication **in order to prove the publication of the paper in the proceedings of the event (a certificate for paper presentation does not prove the paper's publication).**

⁸Append to the documentation the first page of each paper, stating the month and year of publication **in order to prove the publication of the paper in the proceedings of the event (a certificate for paper presentation does not prove the paper's publication).**

⁹Append to the documentation the certificates corresponding to each award received. **Do not append certificate of participation of events, courses, etc.**

¹⁰Distinct course (s), according to the areas identified in section 1, from that used in the calculation of parameter p_2 .

N1 calculation formula

$$N1 = \min \{ \mathcal{J}(p_2, \dots, p_{10}); 10, 0 \}$$

$$\begin{aligned} \mathcal{J}(p_2, \dots, p_{10}) &= \gamma p_2 \sqrt{20 p_3} \\ &+ \beta \{ f(p_4) + 0, 5 f(p_5) + 2 f(p_6) + f(p_7) + 0, 25 f(p_8) + p_9 + p_{10} \} \end{aligned}$$

$$f(x) = \rho \text{signal}(x) + \frac{x}{5}; \quad \gamma = 0, 1; \quad \beta = 0, 7; \quad \rho = 0, 5;$$

$$\text{signal}(x) := \begin{cases} 1, & x > 0, \\ 0, & x = 0. \end{cases}$$

APENDIX II

REFERENCE FORM

Candidate name:	
Referee's name:	
Institution:	Current position:

Please, complete the following table.

	Excellent	Very Good	Good	Regular	Weak
Intellectual Ability					
Study motivation					
Individual work ability					
Team work ability					
Academic formation					
Written expression ability					
Oral expression ability					

Describe your relationship with the candidate and for how long you know him/her.

APENDIX III

Spreadsheet for the calculation of N1 (see examples at the bottom of this page)

Evaluation Parameters		Write out in full
p_2	General Point Average (GPA) of the undergraduation course ¹ adjusted to the range between 0 to 10 (decimal)	
p_3	Ministry of Education evaluation index ³ for the course, in the range of 1 to 5	To be filled by PG-LNCC
p_4	Scientific Initiation (in years); minimum 6 months ⁴	
p_5	Experience/internship in the training area related to the PG-LNCC (in years); Minimum of 1 year and within the last 5 years ⁵ .	
p_6	Published full paper in an indexed journal ⁶ with editorial board and peer review (in number of articles in the past 5 years)	
p_7	Published full paper in conferences or in a non-indexed journal ⁷ with editorial board and peer review (in number of articles in the past 5 years)	
p_8	Published abstracts in conferences ⁸ (in number of abstracts in the past 5 years)	
p_9	Honors and academic awards ⁹ : (a) Best thesis, dissertation, paper, software in International or National level: value 1.0; (b) medalist in Academic Olympiads, best poster, paper/software in congress, best national Scientific Initiation work: 0.5; (c) Regional Academic Awards: 0.25 (NOTE: Maximum value for this parameter is 1.5)	
p_{10}	Diplomas in more than one (different) undergraduate courses ¹⁰ , $p_{10} \in \{0, 1\}$ 1 = more one diploma 0 = one diploma	
Final Concept N1 Score		

^{1,2}Examples:

p_4 (Scientific Initiation) \Rightarrow from 09/01/15 to 01/31/16 + 02/01/17 to 04/18 = 5 months + 14 months=19/12 years = 1.583 years.

p_5 (Experience/internship) \Rightarrow from 01/02/2011 to 31/01/15 = 24 months=24/12 years=2 years.
Maximum value of this parameter is 5.

^{3,4,5}Only articles published from 03/2014 onwards. The certificate of work presentation is mandatory for the evaluation of parameters p_7 and p_8 .

⁶Examples: Mathematics and Physics degrees $\Rightarrow p_{10}=1$ Bachelor's degree in Mathematics and a degree in Mathematics $p_{10}=0$
